7 Riders Per Team

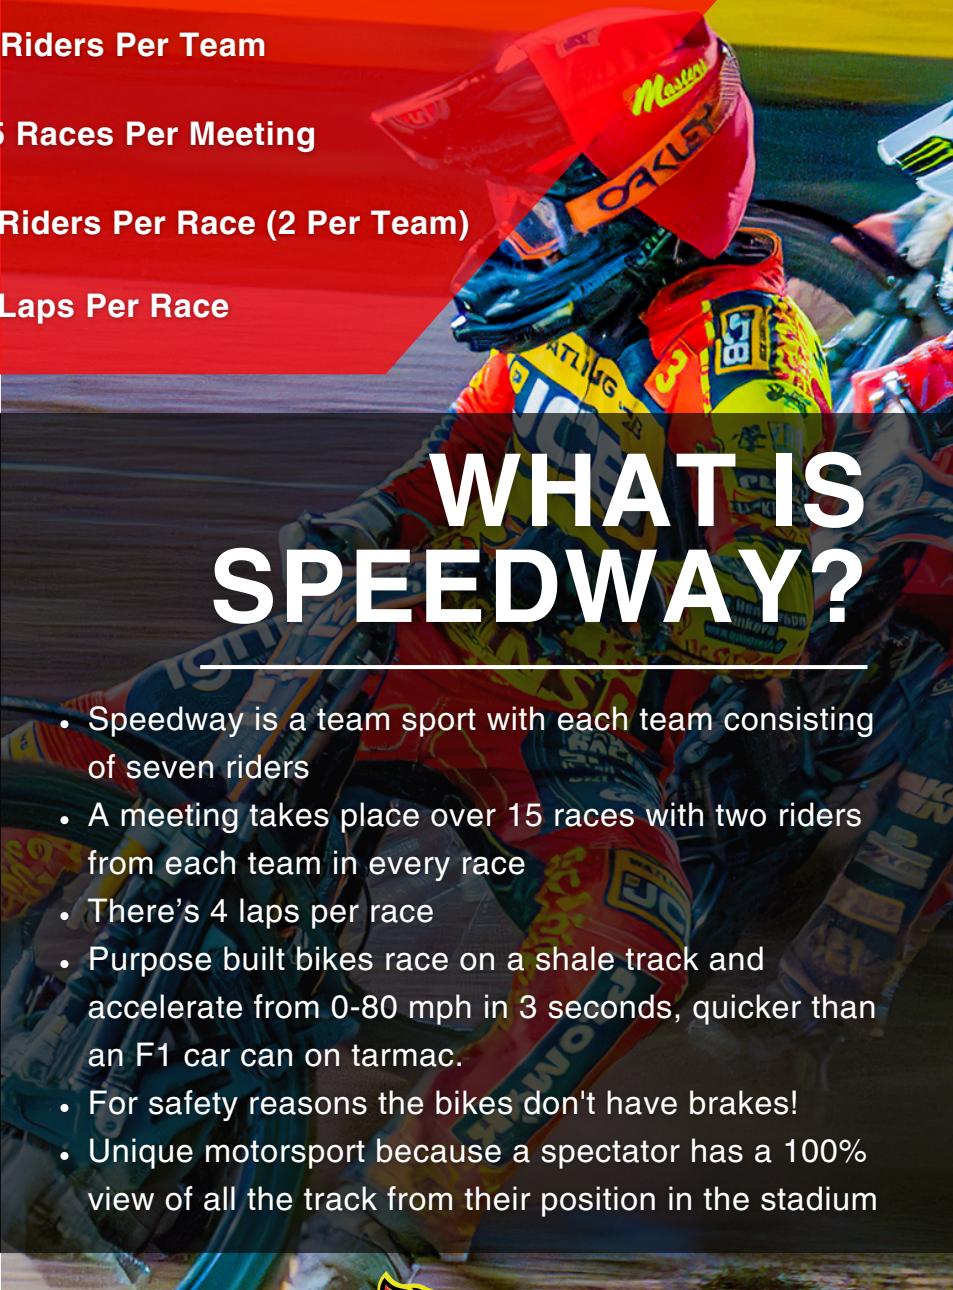

15 Races Per Meeting

4 Riders Per Race (2 Per Team)

4 Laps Per Race

WHAT IS SPEEDWAY?

- Speedway is a team sport with each team consisting of seven riders
- A meeting takes place over 15 races with two riders from each team in every race
- There's 4 laps per race
- Purpose built bikes race on a shale track and accelerate from 0-80 mph in 3 seconds, quicker than an F1 car can on tarmac.
- For safety reasons the bikes don't have brakes!
- Unique motorsport because a spectator has a 100% view of all the track from their position in the stadium
